

Mitsubishi Lancer Evolution XI Concept - Mood Board

Main characteristics:

- Sedan (Longer slick body)
- Rally AWD (Performance look)

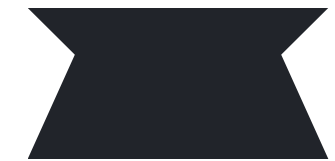

2004 ver. (VII - VIII gen)

latest (2009 - gen X)

Front view

current grille design
very close to Lexus design

older design with
much more identity

Direct competitor:

Subaru Impreza STi Line

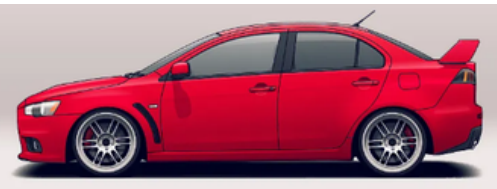

2004 ver. (II gen)

latest (2025)

Body lines / side profile

Lancer Evo

Visible change over time

- Heavier stance
- Higher body
- Sleaker shapes
- Agressive hood angle
- Slighly visually shorter rear and longer hood
- Pure Sedan → Fastback

Modern example - Hyunday Sonata (2026)

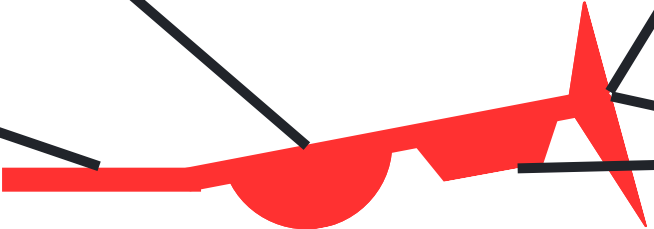

Subaru Impreza

Rear view

Mixing elements of other mitsubishi vehicles due to no clear design directions

- Outer triangular light
- Inner trapezoid / circular lights
- Modern light-strip throughout trunks length

Option A
Rounded

Option B
Boxy

Design direction on current cars

silver paneling accent

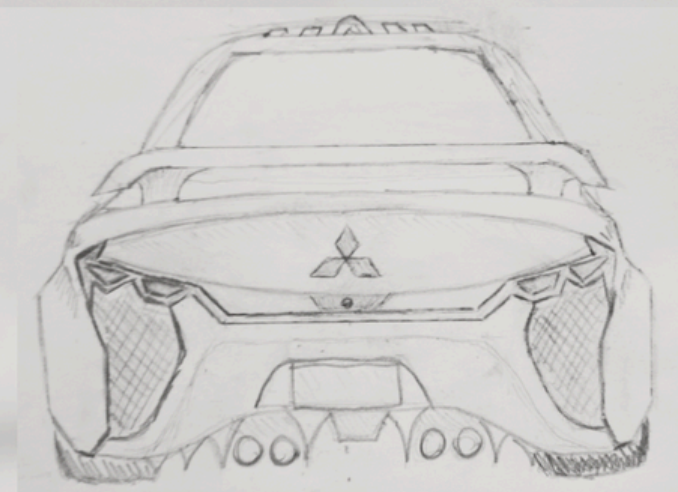

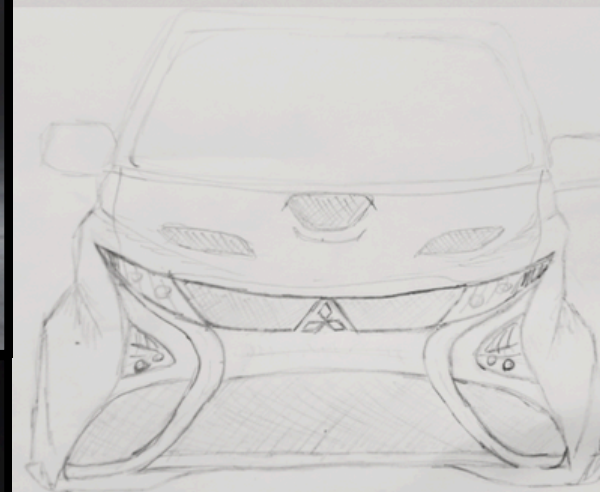

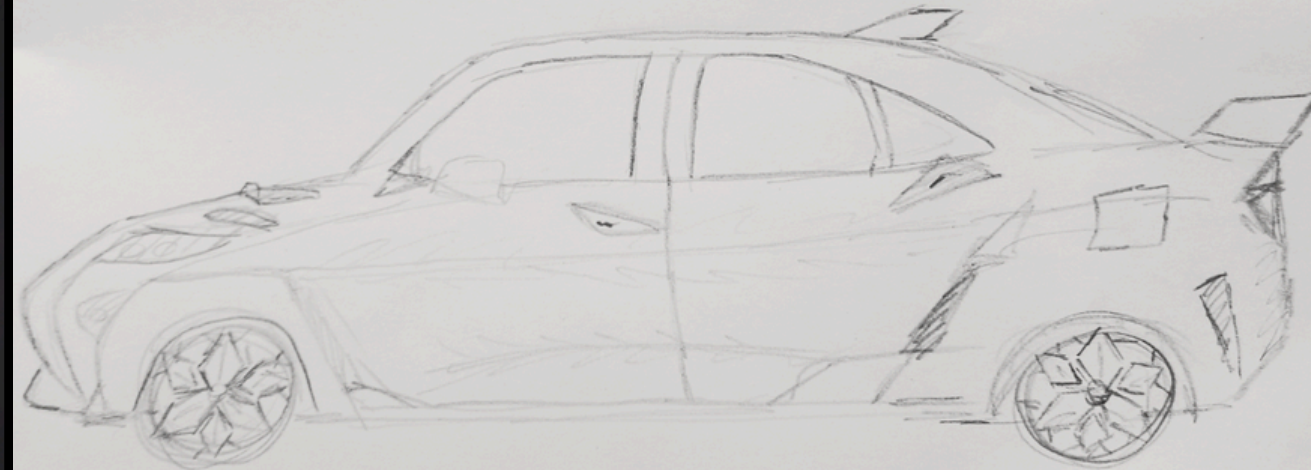

secondary light unit

distinct light strip design

Current Mitsubishi line-up + Concepts - unfortunately all PHEV SUVs
